Chsoft_HeurekaVerifiedByCustomers

Instalation

Requirements

- PHP's cURL module `php-curl`

Modman installation

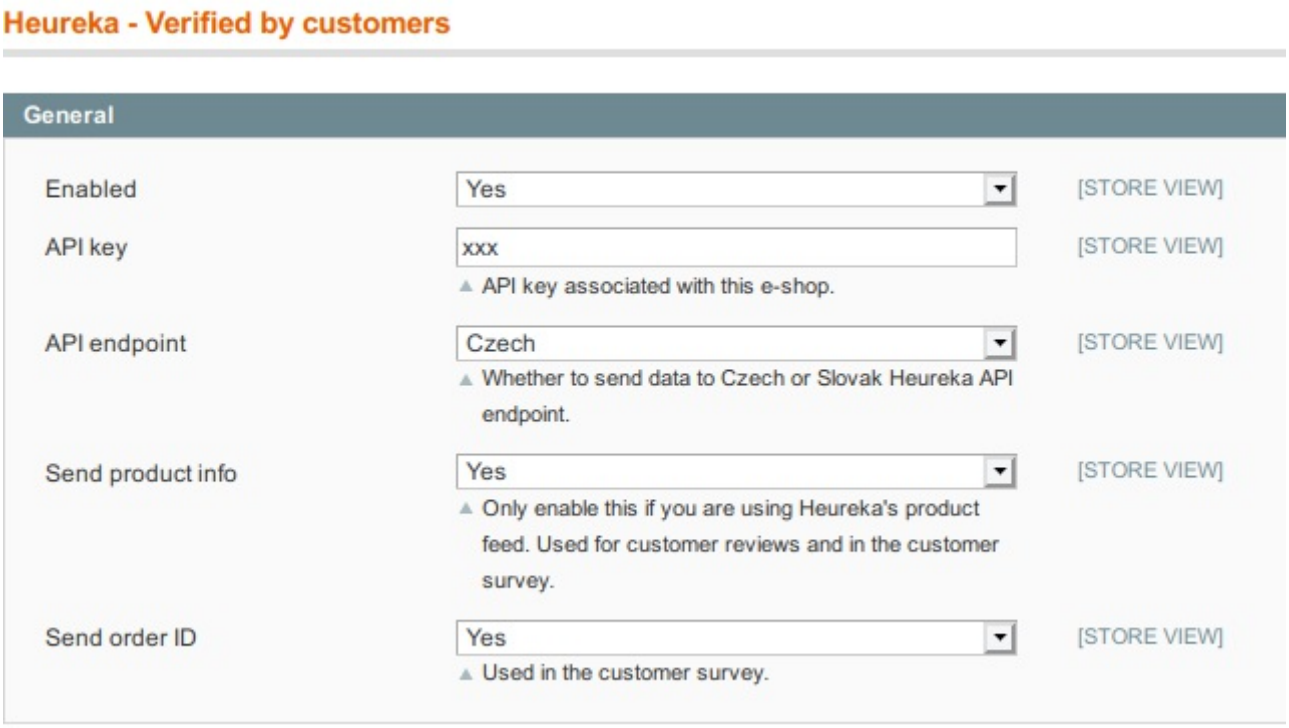
- Copy `Chsoft_HeurekaVerifiedByCustomers` folder into `/PROJECT_ROOT/.modman/` and then from project root run:

```
$ ./modman deploy Chsoft_HeurekaVerifiedByCustomers
```

Manual installation

- Copy app folder from `Chsoft_HeurekaVerifiedByCustomers` into your `/PROJECT_ROOT/`.

Usage



- **Enabled**
    - Whether the module is enabled or disabled.

- **API key**
    - API key associated with this e-shop. You can get one in Heureka's e-shop administration.
- **API endpoint**
    - Whether to send data to Czech or Slovak Heureka API endpoint.
- **Send product info**
    - Choose which information to send about products, if any.
    - Used for customer reviews and in the customer survey.
- **Send order ID**
    - Used in the customer survey.

That's it! Order information will be sent to Heureka automatically.
